

GRAMTON™

Milk Weighing Scale

Applications:

- Dairy
- Milk Collection Centers/Units

- High Accuracy
- Rugged Design with Rust proof
- Computer Interface

Overview:

With Technological Superiority our microcontroller based Milk Weighing scale is having high Accuracy and bright LED display for excellent visibility. This weighing machine is checked on various quality parameters to ensure its efficient performance. Our Milk Weigher is protected from moisture and humidity to resist the corrosion. This is the right solution to increase productivity of milk collection with much better speed.

Salient Features:

- Bright LED Display
- Less power consumption
- Advanced microprocessor based design
- Rugged wash down design
- Internal ADC-count of 2,50,000
- Reliable Single Chip Solution
- MS/SS Housing
- No loss of revenue as software can calculates various deductions

- Programmable conversion factor for kilograms to litre
- Rechargeable battery with 24 hrs backup

Optional Accessories:

- RS232 Interface
- Data Processing Unit
- Serial Printing Interface
- Control Panel

Technical Specifications:

·Power supply	220-V AC, 50 Hz (SMPS)
·Power consumption	18W
·Operating Temp./Humidity	0°C to 45°C / 85% RH Max.
·Display digit	5 Digits
·Display size	13 mm

GMW Series Specifications:

Model	Capacity	Accuracy	Overall Size (L X W XH)	Material of Construction
GP 600-MW	600 kg	100 g	1265 X 625 X 1290 mm	MS
GP 600-MW	600 kg	100 g	1150 X 635 X 1350 mm	SS # 304

Gramton Weighing Automations

 Office Address: Office No. 102, Rudra Apartment, CTS No. 846, Opposite Dyanprobhodhani School, Sadashiv Peth, Pune 411030

 Factory Address: House No. 127, Sr. No. 145, Fursungi, Tal: Haveli, Pune: 412308
